

# GIVING IS OFTEN AS REWARDING AS RECEIVING

As some of you may know, team member Patrick Lepine from the Lodging department and his family are very suddenly facing a challenging time. Just before his 2nd birthday, Patrick's son, Alister, was diagnosed with Stage 3 Rhabdomyosarcoma cancer. Alister is currently receiving chemotherapy and transfusion treatments at Dartmouth Hitchcock, which has placed an unimaginable hardship on Patrick and his family. Any contribution, no matter how small, can help make a significant difference and show our support as a team. If you are unable to donate at this time, sharing the link with your network would also be incredibly helpful.
