

# MOVING UP

## Congratulations to Doug Manning.

Congratulations to Doug Manning, Director of Facilities.

Doug has been in a facilities leadership role at Jay Peak since 2015. He has held various positions at Jay Peak dating back to 1979. His most recent responsibilities include managing the electrical department and managing the facilities teams at the resort.

Doug has extensive technical experience having worked for many large industrial companies over his career. He has a great understanding of the complexity of our resorts facilities and is a terrific team leader. He leads by example and has earned the respect of his coworkers. Doug is an outside the box thinker and has brought countless improvements to our campus that help our buildings and operations departments run more efficiently.

In addition to Doug's current responsibilities he will now oversee the Condo and Waterpark Maintenance Departments as well as be a welcomed addition to the resorts Director Team.

Please join me in congratulating Doug on his new role at the resort.

### **Andrew Stenger**

Director of Mountain & Base Area Operations
