

MOVING UP

Congratulations to Luke Sussdorff.

A tip of the hat and some words of 'Congrats' to Luke for adding the world of Recreation to his already packed plate.

Luke jumped on the Jay train 10 years ago as an intern working at the golf course, various front desks and few spins through the Operations world. We offered him his own desk in the Events office in October of 2013 and shortly thereafter tried to break him by opening the Stateside Amphitheater and adding the world of music and festivals to his duties of managing all of the resort's on-hill events. He never blinked. Since then, he has taken on co-management responsibilities of Clips and Reels and just last summer raised his hand to be an integral part of the team that's working to bring mountain biking to the resort. Oh, and in his spare time he jumped on the team that manages our sports-and-rec fields.

Congratulations Luke to Moving Up to become Jay Peak's Manager of Events and Recreation.

(Now get back to work.)

JJ Toland

Director of Communications, Events & Corporate Partnerships
