

MOVING UP

Congratulations to Peter Cahalin.

I would like to welcome Peter Cahalin to the Lift Maintenance team at Jay Peak.

Pete came to Jay in the late fall of 2021 from New Jersey, where he had managed an auto parts store for quite some time and he was looking for a change of pace. We offered him a position working on the Tram and since working there (and on other lifts during the winter) he has shown that he has great customer relation skills and mechanical aptitude. He always asks the right questions and pays close attention anytime there is something new to learn about the lifts which has helped lead him to his promotion to Lift Mechanic. Peter will eventually be a part of the Vermont Apprenticeship Program for Lift Mechanics and participate in a non-destructive testing course.

Pete is a hardworking, easy to get along with type of guy who is fitting in great with the rest of the team. If you see Pete around campus, please congratulate him for Moving Up.

Craig Parrish

Lift Maintenance & Operations Manager
