

WELCOME TO THE TEAM

Welcome and congratulations, Paige.

Please join me in welcoming Paige Walsh to the Lift Maintenance department.

Myself and the rest of the crew are very happy to say that, with Paige joining the department, we are now fully staffed for the first time since Covid-19 began. The impact of Paige's presence in the department is already felt, as the team can easily split up into 2 separate crews now to get work done much more quickly and efficiently.

Paige previously worked at Catamount Resort, on the New York/Massachusetts border, where she started as a Lift Operator and transitioned to a Snowmaker the following winter season. From there, Paige moved into the Lift Maintenance department where she worked for about a year and a half before coming to Jay. Paige is very enthusiastic about learning everything to do with our lifts, especially the Tram and the Flyer.

Welcome to the team, and the Jay Peak community, Paige.

Craig Parrish

Lift Maintenance & Operations Manager
