

GUESTIMONIALS

OUR GUESTS ARE ROOTING FOR YOU AS MUCH AS WE ARE.

Here's what they're saying, in their own words:

“ Hello all,

I can't thank you enough. Gina was the perfect instructor. Observant, knowledgeable, and kind. The feedback and positive reinforcement during the session were paramount. It is said that you cannot buy confidence. This is true. However, you can buy proper instruction. Then dive deep. If the only certainty is the fall, then the hesitation disappears.

After a few days of light practice, I went for it. Last night at dusk everything connected. Dropped in at valve station 2 down the Lower Quai down to the base in the powder.

I cannot thank you all enough. Feeling blessed to be connected with motion and "the mountain" again.

All my best,
-Michael
