

GUESTIMONIALS

OUR GUESTS ARE ROOTING FOR YOU AS MUCH AS WE ARE.

Here's what they're saying, in their own words:

“ **Good morning!**

My family visited Jay Peak yesterday, my son hit the slopes and my husband and I used the nordic trails. I would like to send some kudos out to some of your employees.....We took our son to the rental shop and easily purchased his equipment. Then moved to the tix line where we realized we would need to go back to the rental shop to pick up our nordic tix. We sent our son on his way and went back inside, where we found the line very long. I slipped inside and found one aproned gentleman doing crowd management. I asked him if I had to wait to get the tix or if I could "skip the line". He apologized and said I'd have to wait, which I joked about with him, but was okay with heading back to the end. Moments later, he called me back in and said, it's ok, we can do this now. I was in and out in an instant! Many thanks to him for making that happen! We then headed back to the parking lot to move our vehicle. We asked the hosts at the bottom of the stairs where we should park to best access the trails. They all sort of looked at each other, chatted about where they should guide us to, giggled a bit and then said, "head around the building to the valet parking area, we aren't using it today and you'll be right at the trail head". It was a beautiful day and the helpfulness of your employees really just MADE OUR DAY!

Thanks again, we will certainly be back again!

- Jean-Marie C.
